

eServGlobal Announces Management and Board Changes.

18 January, 2007

eServGlobal Limited (ASX: ESV and LSE: ESG), a worldwide supplier of telecommunications Value Added Services solutions for Messaging and Charging, today announced that Mr Roger Agniel is no longer Chief Executive Officer and a Director of the company.

Mr Agniel became a director of the company in November 2005 and was appointed Chief Executive Officer in January 2006.

Mr Ian Buddery, eServGlobal's Executive Chairman since September 2003, will assume the CEO responsibilities immediately, whilst continuing as Executive Chairman.

eServGlobal's Executive Chairman, Mr Ian Buddery, said, "eServGlobal has substantially completed the integration of the Ferma SA business following the merger in late 2005. Regrettably, there were differences of opinion between the board and CEO which lead to today's announcement. We are grateful to Mr Agniel for his extensive contribution to Ferma and subsequently eServGlobal, over an eight year period in which the company achieved strong growth and a respected place in the industry."

About eServGlobal

eServGlobal (LSE: ESG & ASX: ESV) solutions enables Service Providers to maximize today's proven revenue streams whilst ensuring service continuity and new revenue opportunities when evolving to next generation networks. Over 75 of the world's leading telco's are taking advantage of eServGlobal's advanced solutions and expertise to successfully address their business challenges and to manage over 120 million mobile subscribers.

As a global solutions provider, eServGlobal helps Carriers and Service Providers by providing turnkey solutions and enabling Multimedia Intelligent Services built on a network-independent, open and real-time architecture.

All products are designed for fixed, mobile and NGN/IMS infrastructure: ChargingMax (Prepay to Convergent Charging), Top UP Suite (Voucher to E-Retailer Management), M@ilis (SMS Call Notify to Voice&Video Mail), MessageMax (from SMS Direct Routing to SMS Anti-Fraud), Mobility Suite (Location-based & Presence Services) and INMax (VPN, Number Portability, Service Numbers, etc).
